

Category	Requirement
Performance	The system should process a 10-page lecture note within 30 seconds.
Scalability	The web system must support at least 100 concurrent users sharing materials.
Security	Must use SSL, sanitize uploads, and isolate user sessions.
Usability	The UI must be simple enough for students with no prior training.
Availability	The web platform should have an uptime $\geq 95\%$.
Compatibility	The system should work on modern browsers (Chrome, Firefox, Opera).
Maintainability	The system architecture should allow new plugins or a marketplace.
Localization	Should support multiple languages in UI and study materials.
Legal	Must comply with GDPR and prevent copyright (DMCA, Urheberrechtsverletzung) violations.
Portability	Should be deployable on open-source or cloud infrastructure without licensing cost.
